Computer Donation

PRINCIPAL
MMK & SDM Mahila Mahavidyalaya
Krishnamurthyapuram, Mysore-570 004

Name of the Programme: Computer Donation

Department: Computer Science

Date: 24th September 2022

Time: 12 pm

Venue: Government High School, Lakshmpuram, Mysuru

Coordinator: Smt. K S Sukrutha, Assistant Professor & Head

Objective of the Programme:

The **objective** of this programme is to help the students to meet the growing demands of technology in classrooms and also to provide basic technology facility for the deprived section of the society. We believe all students deserve access to technology in order to participate on a level playing field. Those with access to a computer and the internet are more equipped to flourish in the current technology-based landscape. Further, in order to follow the procedure of disposal of unwanted electronic gadgets to reduce the harmful effects and thereby safeguarding the environment by donating this e-resources for reuse to the needy institute or organisations which require a basic technological need.

Programme Details:

In the present generation, Computer education in schools plays an important role in students' career development. Computer with the internet is the most powerful device that students can use to learn new skills and a more advanced version of current lessons. Our vision is that Computers and the internet not only help students to explore creativity and imagination but also help to understand technologies. Students are future leaders for any nation.

In schools, computer education is one the most important subject if you compare this with current technological updates and demands of computer knowledge in various government and private sectors jobs.

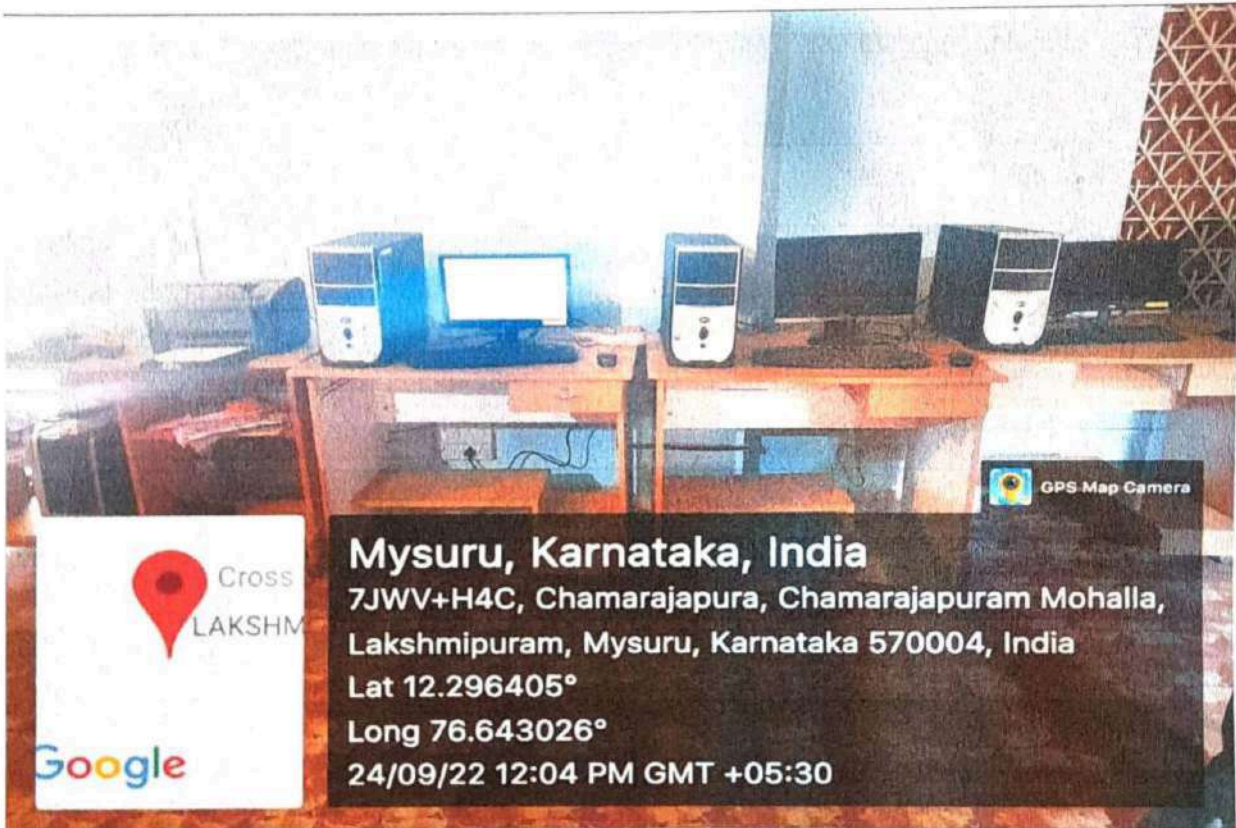

Our mission is to provide young people with a greater awareness of computer in their lives enabling them to learn how to use the computers, new technology and its importance in today's world.

With this vision and mission Department of Computer Science donated **Five Computers and a Printer** to the Government High School, Lakshmpuram, Mysuru on 24/9/2022.

Dear Madam

Subject: Donating Computer Systems& Printer – regarding

MMK & SDM Mahila MahaVidyalaya, Mysuru established in 1990, is now one of the prestigious education centre in the city of Mysore. The College offers degree course in Science, Computers, Commerce & Management. In the process of attaining all round excellence and imparting quality education along with ethical and cultural awareness to the students, we have been organizing number of academic and non academic programs to uphold the excellence which is a Hall mark of SDM Institutions under the benevolence of Rajya Sabha member, Padma Vibhushana Poojya Dr. D Veerendra Heggade Ji. As the President of SDM Educational Society, he has been phenomenally successful in leading more than 56 Institutions throughout Karnataka.

In view to increase the credential of the above, we are happy to inform you that as part of extension activity our benevolent Management has permitted us to donate five number of used & less configured computers and a printer which are in good working conditions for the benefit of students and teachers of your school. The Particulars of the donation is enclosed herewith. Hence we request you to accept the same and acknowledge.

Computer Literacy Programme

Extension Program – 2021-22

Name of the Programme: Computer Literacy Programme

Department: Computer Science

Date: Conducted on different dates of

Coordinator: Smt K S Sukrutha, Assistant Professor & Head

About the Programme:

The computer literacy is now an essential tool that all students must be familiar with in order to complete their routine studies and focusing for future job demand. Whatever our job; Teacher, Planner, Lawyer, Accountant or Salesperson; computer literacy is mandatory for them to succeed. Primary students are also need to gain certain level of computer literacy in order to complete basic every day skills to face our future society.

Computers and the internet not only help students to explore creativity and imagination but also help to understand technologies. Students are future leaders for any nation. Current school students are future doctors, engineers, entrepreneurs. So, for education development, it is really important to teach students in schools about computers, the internet, and their benefits.

Promotion of computer literacy is one of the most essential areas in education. The important role which it plays is intellectual, social, emotional and spiritual development of children.

So, the students of final year BCA of our college tried to touch the rural students by promoting the knowledge of basic computers and the usage of internet as part of extension activity under the guidance of staff members of Department of Computer Science.

In schools, computer education is one the most important subject if you compare this is with current technological updates and demands of computer knowledge in various government and private sectors jobs. In schools, it is really important for computer teachers to teach students about How to use computers, how to understand, the benefits of using various applications such as Microsoft word, excel, PowerPoint, Internet safety etc.

Groups were formed and are sent to various rural schools to teach the students. Our students used their personal laptops and the systems provided (if any) by the school authority. Students submitted the detailed report along with the certificate provided by the school authority to the concerned teachers and the same were documented in the department.

The outcome of this programme benefits the students in learning the following concepts:

- ✓ Creating awareness on Computer basics – Generations, Computer hardware, Networking
- ✓ Usage of MS – Office Package
- ✓ Preparing documents like school assignments and projects using MS Word
- ✓ Preparing charts using MS Excel
- ✓ Preparing presentations using MS Power Point
- ✓ Preparing drawings using MS paint
- ✓ Usage of web browsers, Creation of Email-ID for communication purpose, Advantages of using search engines such as Google to prepare school projects and presentations, YouTube for watching science experiments and also for other educational purpose. Applications of Internet.

Topics Covered in Computer Literacy Programme (Syllabus):

1. Basic knowledge of Computer

- Computer Basics
- Generation of Computers
- Types of Computers
- Input and output Devices
- Computer Storage

2. Microsoft Word

- Formatting
- Paragraph Writing
- Alignment
- Table Insertion
- Formula Insertion

3. Microsoft Excel

- Automatic Filling
- Formula Calculation
- Database Creation
- Chart Wizard
- Insertion
- Cell Merging

4. PowerPoint Presentation

- Select Slide
- Insert (Shapes, Textbox, Background etc...)
- Image Insertion
- Animation
- Slide Show
- Time setting

5. Microsoft Paint

6. Internet

Name of the Programme: Internet Awareness Programme

Department: Computer Science

Date: 18th August 2022

Coordinator: Smt. K S Sukrutha, Assistant Professor & Head

About the Programme:

Every year the Department of Computer Science organizes Internet Awareness programme for nearby Government High school students as a part of community-oriented activity. All the staff members of the department and selected students actively involved in this training programme to educate the high school children.

Computer education in schools plays an important role in students' career development. Computer with the internet is the most powerful device that students can use to learn new skills and a more advanced version of current lessons.

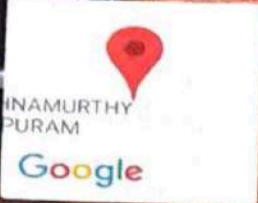

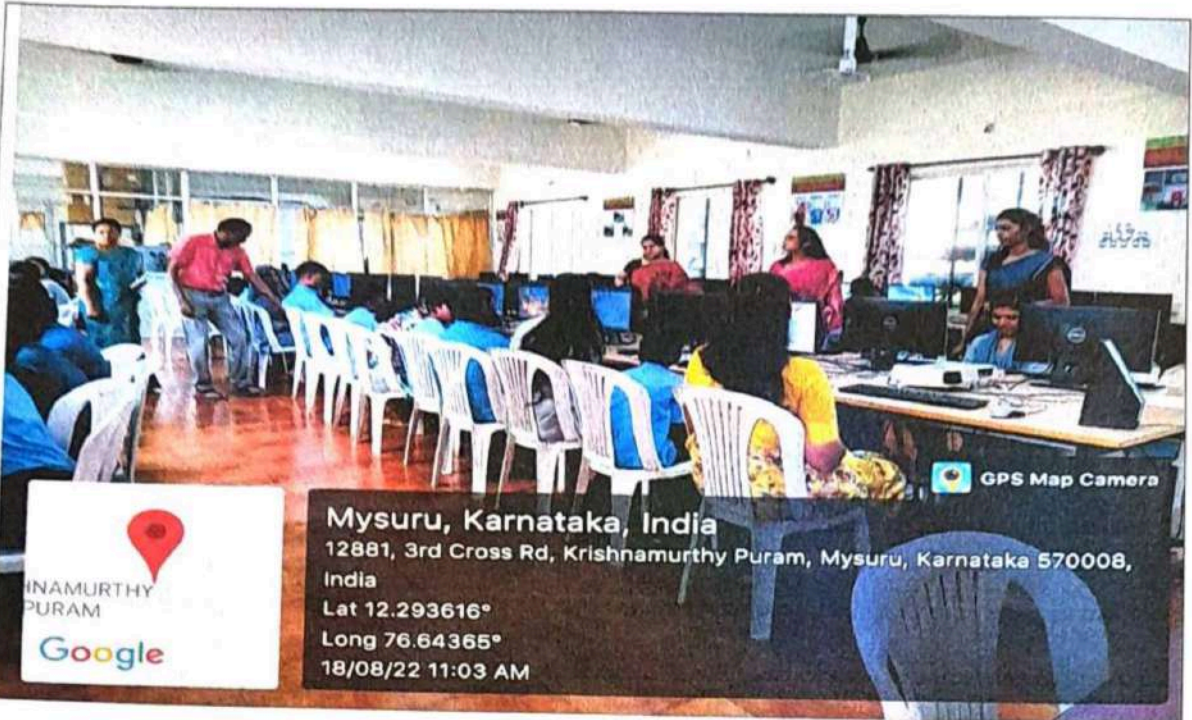

The **objective** of this programme is to educate and train the student to use the present technologies for their academic activity with practical knowledge.

The **outcome** of this programme benefits the students in learning the following concepts:

- Usage of web browsers
- Downloading and usage of various documents from the browser
- Advantages of using search engines such as Google to prepare school projects and presentations
- Preparation of documents using MS-Word with the help of Internet.
- YouTube for watching science experiments and also for other educational purpose.
- Applications of Internet
