SEED BALL MAKING PROGRAMME & ENVIRONMENT DAY CELEBRATION

DATE: 2-6-2022

VENUE: College Premises

NUMBER OF PARTICIPANTS : 55

OBJECTIVE: As environmental concerns continue to rise, it is imperative that we strike a balance between natural and artificial resources. **Our college has aimed to make 15,000 to 20,000 seed balls and disperse them in and around the plant locations to bring down carbon footprint and increase the green cover.**

How to make the seed balls :

Mix seeds and potting soil together. Add dry clay and mix again. Slowly add water while still mixing the seeds, potting soil, and water into a well-blended paste. When you are able to form a ball of the blended material without it falling apart, you are ready to stop mixing.

PROGRAMME OUTCOME :

If the Students practice of seed balls was **very effective in growing rice, barley, vegetables and fruits.** Seed balls are synonymous anywhere there is land for cultivation. They are an effective way of establishing plants without the need for plowing or drilling, at very little cost.
