Courses Offered

Microsoft Data Analyst Associate with Power BI

The BI industry is booming, and every day, more hiring managers and recruiters are looking for professionals who not only know their way around BI tools, but have certifications to back their claims. Knowing this, what are you doing to let everyone know you mean business. Becoming Power BI certified is a must if you want to remain competitive in the analytics job market. Employers need to know that you can use their BI stack without training, and certifications do just that—they endorse the skills that can't be measured on a resume, portfolio, or in an interview.

By mastering Power BI, you become more efficient at work and are able to communicate and uncover deeper insights than before. You also gain the confidence to lead more projects and solve complex business challenge.

To,

State Head
ICT Academy

Karnataka

Dear Sir,

It gives me a great pleasure to share with you that the appreciation my students had for you during the certificate course that you conducted in our college from 10-08-200 to 22-08-2022 on the topic "**Programming Essentials in Python**" implemented by **ICT Academy**.

We are happy to state that **FedEx Express-CSR** initiative conducted a highly successful certificate course entitled "**Programming Essentials in Python**". 64 students participated in this workshop held over 10 days.

I can say without hesitation that this was one of the most successful certificate course organized in our college. The 10 days course handled by the resource person Mr. Mohammed Yasin Shabhaz, was an unforgettable experience for the students and I can confirm that you have brought about a positive change in the capacity building of my students.

We appreciate your kind cooperation in this regard. We are happy to acknowledge the service rendered by Mr Prajwal S Vasista, Relationship Manager, ICT Academy, Mysore Region in this regard. Further, we would like to have such kind of programs in our college in future also.

Thanking you,

Yours Sincerely
