

MMK & SDM MAHILA MAHAVIDYALAY
KRISHNAMURTHY PURAM, MYSORE

P.G Dept of Commerce

ORGANIZING INTERCOLLEGIATE TWO DAYS
WORKSHOP
ON
EMPOWERING RESEARCH & SPSS ESSENTIALS

16 & 17 APRIL 2024 @ 9.45A.M

RESOURCE PERSONS
PROF. PREMKUMAR G S & PROF. MAHESHA M

FOR
M.COM STUDENTS.

Venue: Auditorium

REGISTRATION FEES :RS.150
CONTACT NO :7019619021,9902989083

INTERCOLLEGIATE TWO DAYS WORKSHOP
ON
EMPOWERING RESEARCH & SPSS ESSENTIALS

DAY 1

- Ø INTRODUCTION TO RESEARCH METHODOLOGY
- Ø REVIEW OF LITERATURE & RESEARCH GAP
- Ø FORMATION OF OBJECTIVES & HYPOTHESIS
- Ø METHODS OF DATA ANALYSIS
- Ø TYPES OF DATA
- Ø DESCRIPTIVE STATISTICS
- Ø RESULTS AND INTERPRETATION
- Ø GRAPHICAL REPRESENTATION
- Ø INTRODUCTION TO SPSS

DAY 2

- Ø PROJECT PREPARATION
- Ø INFERENCE STATISTICS
- Ø T TESTS
- Ø F TESTS
- Ø CHI SQUARE TESTS
- Ø THEORETICAL DISTRIBUTION
- Ø NORMAL, T TESTS, F TESTS, CHI SQUARE
- Ø TESTING OF HYPOTHESIS
- Ø RESULTS AND INTERPRETATION
- Ø CONSTRUCTION OF TABLES
- Ø ONLINE REVIEW OF LITERATURE & REFERENCES

REGISTRATION FEES :RS.150
CONTACT NO :7019619021,9902989083

Report

Overview of the Program:

The two-day intercollegiate workshop on "Empowering Research and SPSS Essentials" was conducted with the aim of equipping postgraduate commerce students with essential research and statistical skills. Organized in association with the IQAC, this workshop aimed to address the growing need for advanced research methodologies and statistical software skills among students pursuing higher education in commerce. The workshop was designed to provide hands-on experience in SPSS, a crucial tool for data analysis in both academic and professional research. It was attended by all II M.Com students, enhancing their academic and practical understanding of research practices and quantitative analysis. The workshop was divided into two segments over two days, each day focusing on unique aspects of research and statistical tools. Prof. Mahesh and Prof. Premakumar, both experienced academics, served as resource persons, providing valuable insights into the core concepts of research methodology and SPSS application.

Program Objectives:

- To familiarize students with essential research concepts - This includes understanding various research designs, formulating research questions, and developing a research framework suitable for academic and professional use.
- To introduce SPSS as a statistical tool - With hands-on sessions, students learned to navigate SPSS software, enabling them to perform data analysis, interpret results, and apply these findings in their projects.
- To enhance analytical skills for real-world application - Emphasis was placed on using SPSS for practical data interpretation, helping students understand how quantitative methods can provide insights in commerce and business contexts.
- To prepare students for advanced academic research - The workshop was crafted to build confidence in handling data for research purposes, which is essential for thesis work, dissertations, or further academic pursuits.

Program Outcomes

- **Enhanced Understanding of Research Methods** - Students gained an in-depth understanding of various research methodologies, including both qualitative and quantitative approaches.
- **Practical Knowledge of SPSS** - By the end of the workshop, students could confidently navigate SPSS software, apply statistical techniques, and interpret the results, providing them with a competitive edge in both academic and professional fields.
- **Improved Data Analysis Skills** - Students acquired critical skills in analyzing and interpreting data, enabling them to handle complex datasets effectively.
- **Application of Learned Concepts in Real-life Projects** - Students are now better prepared to apply these research and SPSS skills in their final-year projects, internships, and future careers in research-intensive roles.

The workshop concluded with positive participation with the interactive sessions and practical guidance provided by the resource persons.
