

Department: DEPARTMENT OF BIOCHEMISTRY

Program: TED Lecture on 'How trees talk to each other' by Suzanne Simard

Date: 23.05.2023

Time: 11.00.am to 12.00 pm

Organizer: Dr Chaitanya Pandit, Assistant Professor, Dept of Biochemistry

Venue: Classroom

Total Participants: 31

Program Objectives: To provide an all round perspective and exposure to students about communication systems that exists in the plant kingdom

Program Details: A TED lecture was shown to III year life science students by Dr Chaitanya Pandit to educate them about the chemical communication systems that exist in the plant kingdom. This was an effort to expose students to topics outside of the curriculum and inculcate a curiosity that will push them to explore the subject in depth

Program Outcomes:

1. The students learnt about the chemical communication system that exists in the plant kingdom and how plants communicate with one another
2. They were made aware of the many possible areas of research that can be undertaken in the field of plant biochemistry

Students attending the TED Lecture on 'How trees talk to each other' by Suzanne Simard on 23.05.2023

Report prepared by Dr Chaitanya Pandit
