***“In Vitro Generation of Organ-like Structures from Stem Cells: Principles, Applications, and Challenges”***

**Date: 21<sup>st</sup> June 2021**

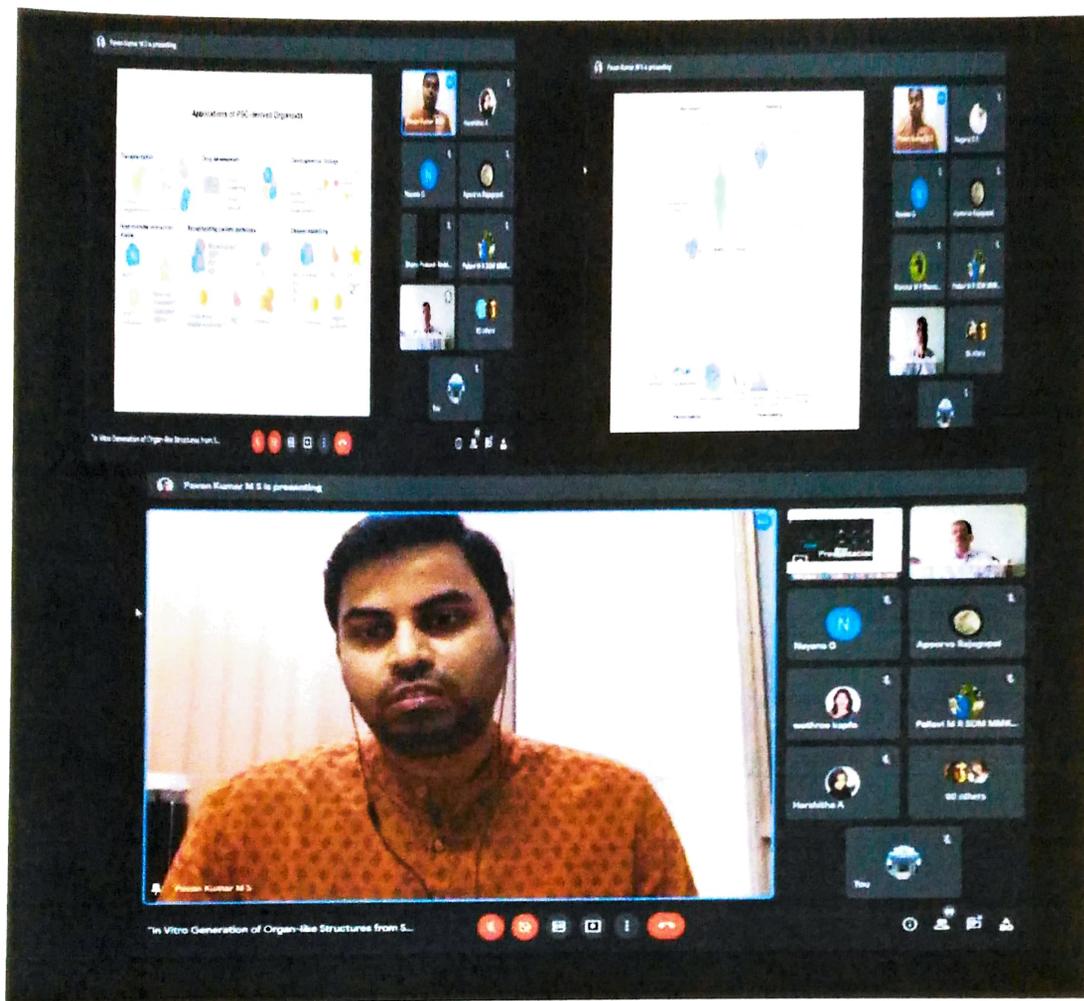

Department of Biochemistry and IQAC organized National Webinar on *“In Vitro Generation of Organ-like Structures from Stem Cells: Principles, Applications, and Challenges”* by **Pavan Kumar M. S., Research Scholar, Laboratory of RNA and Stem Cell Biology, National Centre for Cell Science (NCCS), Savitribai Phule Pune University campus, Pune, Maharashtra, India on 21<sup>st</sup> June 2021, Monday.**

**Prof. Sainath Malligemadu**, Principal was the Chief Organizer, **Prof. Sumithra G R**, Head, Department of Electronics, IQAC Co-ordinator. **Mrs. Pallavi MR.**, Assistant Professor of Biochemistry and **Dr. Wethroe Kapfo.**, Assistant Professor and Head of Department of Biochemistry were the Convener and Co-convener of the program respectively. Students of III B.Sc (BMBt) **Apoorva M R** and **Arya N R** were the Organizing members of the program. The webinar was conducted using Google Meet and YouTube Live Stream. Around **169** responses were there for the registration of webinar. Distinguished personalities like 111 numbers of students, 18 numbers of research scholars, 38 numbers of faculty, 2 numbers of industrialists responded to the webinar. Participants were present from various places from different states of **India like Andhra Pradesh, Karnataka, Maharashtra, Tamil Nadu and Uttar Pradesh.**

Students of III B.Sc (BMBt) **Apoorva M R** and **Arya N R** initiated the program. **Dr. Wethroe Kapfo** welcomed all for the webinar. **Prof. Sainath Malligemadu**, gave presidential address and spoke few words on stem cells and also about the college.

  
**PRINCIPAL**  
**MMK & SDM Mahila Maha Vidyalaya**  
**Krishnamurthypuram, Mysuru-570001**

Speaker Pavan Kumar M. S., took over the session on 21<sup>st</sup> January 2021, Monday Afternoon- 3:00PM to 5:00 PM on the topic **“In Vitro Generation of Organ-like Structures from Stem Cells: Principles, Applications, and Challenges”**

The *in-vitro* meat is a novel concept in food biotechnology comprising field of tissue engineering and cellular agriculture. It involves production of edible biomass by *in-vitro* culture of stem cells harvested from the muscle of live animals by self-organizing or scaffolding methodology. It is considered as efficient, environmental friendly, better ensuring public safety and nutritional security, as well as ethical way of producing meat. Source of stem cells, media ingredients, supply of large size bioreactors, skilled manpower, sanitary requirements, production of products with similar sensory and textural attributes as of conventional meat, consumer acceptance, and proper set up of regulatory framework are challenges faced in commercialization and consumer acceptance of *in-vitro* meat. To realize any perceivable change in various socio-economic and environmental spheres, the technology should be commercialized and should be cost-effective as conventional meat and widely

**PRINCIPAL**  
MMK & SDM Mahila Maha Vidyalaya  
Krishnamurthypuram, Mysuru-570004

accepted among consumers. The new challenges of increasing demand of meat with the increasing population could be fulfilled by the establishment of *in-vitro* meat production at large scale and its popularization. The adoption of *in-vitro* meat production at an industrial scale will lead to self-sufficiency in the developed world.

His excellent research experience, led the session more interesting with questions and discussion.

*Mrs. Pallavi M R concluded the program with Vote of Thanks. At the end almost all the participants gave Best program in the feedback response and made this webinar successful one.*

*National Webinar*  
Request for Proposal

Date: 21<sup>st</sup> June, 2021

*Title of the talk:*

**“In Vitro Generation of Organ-like Structures from Stem Cells: Principles, Applications, and Challenges”**

**Abstract:**

Biomedical research has relied historically on the cell line and animal model systems to understand human biology and diseases. The challenge with the animal models is that they cannot address the processes specific to human biology. Recent advancements in human pluripotent and adult stem cell culture and directed differentiation have enabled the generation of 3-dimensional multi-cellular and self-organizing structures called '**Organoids**'.

Human organoids are organ-like miniatures that recreate the architecture and physiology of actual human organs in remarkable detail. In this webinar, Speaker will explain **the principles of generating such mini-organs and highlight promising results from the recent research on various aspects of human biology and disease.**

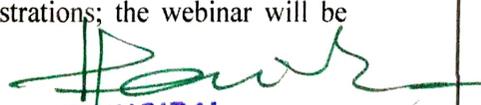

**Confirmed Speaker:**

**Pavan Kumar M. S.**

Research Scholar  
Laboratory of RNA and Stem Cell Biology  
National Centre for Cell Science (NCCS)  
Savitribai Phule Pune University campus  
Pune, Maharashtra  
India

**Arrangements:**

The National webinar will be organised by the Department of Biochemistry, MMK & SDM MMV, Mysuru. Principal Prof. Sainath Malligemadu will be the Chief Organizer, Pallavi MR., Assistant Professor of Biochemistry will be the Convener, Dr. Wethroe Kapfo., Assistant Professor and Head of Department of Biochemistry will be the Co-convener and Mrs., and Students of III B.Sc (BMBt) Apoorva M R and Arya N R will be the Organizing members of the program. Depending on the number of registrations; the webinar will be conducted using Google Suite and YouTube Live.

About the MMK & SDM MMV Institution:

Mysore Makkala Koota And Shri Dharmasthala Manjunatheshwara Mahila Maha Vidyalaya, Mysore, is a pioneering college in the field of women's education and empowerment. Established in the year 1990 by Mysore Makkala Koota(R) Mysore, the college was subsequently handed over to Shri Dharmasthala Manjunatheshwara educational society (R), Ujire, Dakshina Kannada District, Karnataka, India. The name Shri Dharmasthala Manjunatheshwara casts a spiritual hallow all around. The institution has been striving to attain all round excellence and to impart quality education along with ethical and cultural awareness to students of all strata of society. Today, MMK & SDM MMV, Mysore is the most sought after college by girls and their parents in and around Mysore and we proudly claim that admission to this college has become a matter of pride and prestige.

Dear Dr Wethroe,  
With reference to your email and proposal of the NW, i agree with proposal and go ahead with it.  
And i take this opportunity to thank both of you for such an initiative.  
Stay safe and take care.  
With best regards,

Sainath Malligemadu  
Principal

Sun, Jun 20, 2021 at 12:56 PM

Dear Sir,

We are glad to invite you to our national webinar scheduled on 21-06-2021, from 3pm to 5pm (Indian Standard Time) on "In Vitro Generation of Organ-like Structures from Stem Cells: Principles, Applications, and Challenges" and also thank you for accepting our invitation and being the resource person for the webinar.

We are using google meet and youtube live stream as our webinar platform. We request you to provide your priced time for the rehearsal to check for any technical problems. Your kind cooperation for the rehearsal support and encourage us to make our webinar go smooth and successful.

We have attached an invitation of our national webinar. Hope you like it.

All the best for your session.

Thanking You
