OBJECTIVES :

- To learn the progressive abnormalities of the kidneys that are caused by diabetes.

PROCEEDINGS OF THE WEBINAR:

- The program was inaugurated by **our Principal Prof. Sainath Malligemadu** who delivered the key note address. He highlighted the importance of research and Diabetic Nephropathy. The participants were encouraged to acknowledge the current technological accomplishments the wide scope towards discoveries in Life Science.
- The National Webinar perceived a dynamic talk from renowned Resource Person Dr. Anil K Pasupulati, Asst. Professor, Dept. of Biochemistry, University of Hyderabad.

OUTCOME:

- A significant long-term improvement in insulin sensitivity in people with type 2 **diabetes**. Chronic Kidney Diseases program integrates clinical care teams to improve your life.

CONCLUSION:

Over 95 participants comprising of faculties from various institutions, research scholars from different Research Centres and PG students from different places participated in the Webinar
