## About the Workshop

The National Workshop on “NMR Spectra Data Interpretation” focuses on the technique of analysing the spectral data obtained after running the sample. The challenge has always been after obtaining the data. As many researchers do not have the fundamentals of understanding the data, they have to depend on experts to help interpret the data. Many times the gap would include the struggle in communicating with the experts as to what was the procedure followed, the standards used and the type of molecules expected. With this, the Department of Biochemistry had organised a workshop on NMR Spectral Data Interpretation in August 2020, successfully through online mode. The response was phenomenal as many researchers from different parts of the country participated. The common feedback was, however, that they wanted more problems to be worked out, which was a challenge due to technical constraints. The department has therefore, decided to organise a similar workshop again, through physical mode for the benefit of the researchers. This way more problems can be solved and more effective discussions and interactions can take place. Through this workshop, the department will also initiate the workshop series on Spectroscopic Techniques to be held annually.

## About MMK & SDM Mahila Mahavidyalaya

MMK & SDM Mahila Maha Vidyalaya was incepted in 1990 and was taken over in 1992 by the SDME society as the first & only women’s college among 56 institutions under SDM Educational Society®, a non-profit NGO dedicated to societal service through education & socio-cultural consciousness. The vision and leadership of Dharmadhikari of Shri Kshetra Dharmasthala, Padmavibhushana awardee and recently inducted as Member of the Rajya Sabha of the Indian Parliament Poojya Dr.Veerendra Heggade, fulfilling the college motto, “Empowerment of Women to face the Global challenges.” It is recognized as one of the premier institutions in India, by India Today, Outlook, Silicon India and NIRF providing affordable quality education to socio-economically challenged students hailing from Karnataka and neighbouring states. The college is UGC recognised by 2(F) and 12 (B) statuses, and was recently accredited by NAAC with B Grade and successfully submitted first year AQAR for second cycle. It offers programs in BSc., B.Com, BBA, BCA and M.Com.
